### WAS THE BANK KUCHEBED.

The San Francisco correspondent of the Stockton Mail tells the following:

I heard the other day that the Nevada bank had been badly hurt by the late wheat deal. Not impaired, of course, for its owner's private wealth is too great for that, but pinched on its profits so much that future dividends are exceedingly problematical. The figure was put at \$4,000,000, and if this is true we may look out for a big stock deal to enable Mackay and Flood to pull back some of their lost coin. Apropos of the wheat deal, our Produce Exchange is going to get itself badly disliked by raising the grade of No. 1 shipping to 60½ pounds to the bushel. This was a dirty trick to squeeze farmers who had sold July and August wheat. No upland will raise such wheat, and it is a higher standard than ever was raised before, so farmers who sold their crops in advance, knowing that it had always been No. 1, will find themselves in a nasty fix when they come to deliver, and I don't think that the contract is moral or enforceable in law. If enforced it means that the Northern farmers must send below to buy wet wheat from wet lands to fill their contracts and that will mean a terrible loss. My advice is to repudiate and let the ring have a taste of its own medicine.

### A FIRST CLASS CLIMATE.

In order to appreciate the admirable climate of Nevada one should visit any of the eastern cities during the heated season. As an instance of ravages of hot weather in New York City we furnish some very significant mortality statistics that have just come to hand. In that city the highest daily mortality during the year was recorded Saturday, the 2d instant, 196; the mortality of July 1st being 170 and of June 30th 142. An increase of deaths were noted on the 7th instant, due to diarrhoeal diseases of children. Out of the 197 deaths during that day 128 were of children under 5 years of age, and of this number 90 died from diarrhoeal diseases, chiefly cholera infantum. This clearshowing that the increase is due entirely to the disorders produced by hot weather and that three-fourths of the mortality was simply disorders of digestion.

### What's the Matter with John?

A gentleman from Columbus, Ohio, who is well versed in political affairs of the Buckeye State, states that he had positive information that John Sherman is disgusted with the carryings-on of the party leaders at home, and that he has stated distinctly that unless the Toledo Convention on the 27th in dorses him as a candidate of the State of Ohio, and plainly and equivocally, that he will positively refuse to allow his name to go before the National Convention next year.

The above would indicate that the manner in which John Sherman backs out of a place in which he was never so much as invited, is a very clumsy method of retreat.

—The English greed for tips generally passes without comment, but the Saturday Review was editorially shocked to see a detachment of foot guards, Jubilee day, in the temporary absence of their officer, scrambling for pennies thrown by a group in the balcony of an adjoining building.

—It looks as if Bob Morrow, the notorious mine mismanager, was about to become the Jake Sharp of San Francisco. Some one of the jury fixers has begun suit against him for "services rendered." The Bay papers seem to think that Bob has a chance of going to San Quentin.

—When the C. & C. train comes into Dayton a number of leading citizens rush down and board the train to get a drink of the ice water always carried on the road. It takes several hundred gallons per day to supply the thirsty people along the road.
